Bamenda Cameroon

Ngwa Frank

SUMMARY

I am a full stack Developer with over 4 years of experience and a mastery of HTML, CSS, Bootstrap, JavaScript, React.js, Python and Django. I have some knowledge in C and C++ with knowledge on version control systems like Git and Github. I have worked on many projects for many different satisfied customers and with different individuals in building user friendly and easily navigated websites and applications. While learning and improving on my skills I have been providing others with the knowledge I have especially knowledge on C to students going in for GCE advance level. I am looking forward to working and collaborating with others in completing projects and expanding my skill set.
